

HONORS (HN)

HN 101 Honors First Year Experience (3)

HN101 is a three credit hour course, designed for first-year honors students (incoming honors freshmen) providing students with a common first-semester experience. The course will substitute for WU101 thereby fulfilling this university-wide requirement. Like WU 101, course content will focus upon information literacy, technology, and the transition into the Washburn University Community of Learning in addition to exposure to co-curricular activities (a.k.a., passport activities). Common themes such as the exploration of writing, study skills, research, wellness, technology, plagiarism, and others will be covered to introduce students to a series of best practices for success. HN 101 differs from WU 101 in general in that additional topics will be explored and some shared topics with WU 101 (e.g., writing) be emphasized more. For example, students will learn more about conducting research through instruction and by conducting a group research project, complete a service learning project, and actively participate in seminar-style discussions covering assigned readings. Prerequisite: Accepted into Honors program.
