

SPORT AND HEALTH PSYCHOLOGY, MINOR

SO 315	Sociology of Sport
Total Hours	18

The disciplines of psychology and kinesiology are complementary ones, particularly for students pursuing degrees in health and fitness promotion and exercise and rehab science. The sport and health psychology minor is designed to expose students to a variety of foundational knowledge and skills in both psychology and kinesiology. Students will develop an understanding of educational paths and career opportunities in the fields of kinesiology and psychology.

Student Learning Outcomes

Students will utilize an evidence-based approach in a professionally appropriate manner with athletes, clients, and patients with whom they interact to:

- Understand the impact of mental health on sport, exercise, and physical activity, and apply psychological concepts and perspectives to maximize performance and minimize injury.
- Integrate sport, exercise, and physical activity techniques to maintain mental health and well-being.

This minor requires a minimum of 18 credit hours, consisting of 12 required credit hours and six credit hours taken from an approved list of electives. A minimum of 6 hours will be at the upper-division level. Students must have a grade of "C" or better in each course. A minimum of six hours used to meet the minor requirements must be earned in residence at Washburn University. Students may request alternate coursework be accepted toward the minor. Students should make these requests prior to completing coursework.
