

PHYSICAL THERAPIST ASSISTANT, AAS

The Physical Therapist Assistant Program leads to the Associate of Applied Science (AAS) degree. Upon completion of the program students are eligible to take the national examination through the Federation of State Boards in Physical Therapy (FSBPT) to become Physical Therapist Assistants (PTA). The program features general education and science requirements as well as physical therapy procedure and systems courses and a clinical education component. During clinical courses students may be required to attend clinical sites outside the Topeka area. All students in this program are required to provide their own transportation to clinicals as well as clinical lab attire. Professional liability insurance is provided by Washburn University, however, some clinical sites may require malpractice insurance.

Mission

The mission of the Physical Therapist Assistant Program is to offer a quality career-oriented program allowing graduates to become credentialed Physical Therapist Assistants. To help students achieve this goal, the program is focused on providing excellence in teaching with high faculty-student interaction and enhanced educational experiences through relationships with community partners. By doing so, it allows students to realize their intellectual, academic, and professional potential so they can become lifelong learners who are responsible and productive members of the health care team and local community, state, and region.

Washburn University Assessment - Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1: Demonstrate the ability to work under the supervision of a physical therapist in an ethical, legal, safe, and effective manner.
