

INFORMATION SYSTEMS TECHNOLOGY, AAS

The Information Systems Technology AAS degree offers hands-on instruction in the installation, configuration, and maintenance of computer, data, and telecommunications systems. Students will develop practical skills relevant to today's IT support professionals. This program maintains registered partnerships with the Cisco Networking, CompTIA, Microsoft, and Red Hat academies.

This program will offer students preparation to test for the industry-recognized credentials listed below.

Program Information

- Program Start, technical coursework (semesters): August
- Industry-recognized credentials: CompTIA A+, CompTIA Network+, CompTIA Security+, Administering Windows Server Hybrid Core Infrastructure, Red Hat Certified System Administrator (RHCSA), and Cisco Certified Network Associate (CCNA)

Degree Requirements

In addition to the requirements stated below, students must complete all requirements for an Associate of Applied Science (<https://catalog.washburn.edu/washburn-institute-technology/programs-technical-certificates-graduation-requirements/aas-degrees/>) degree. Completion of the courses below will fulfill the general education requirements for the degree. Please see your advisor for more information.
