

GRAPHICS TECHNOLOGY - CERT A

The Graphics Technology - Cert A program is designed to prepare students for the graphics industry. Students begin with the basics of imaging software and move on to more advanced content through tutorials, projects and internship opportunities. Printing concepts will be learned through study of basic and advanced print components and how they apply to graphics technology. Students are instructed on how graphics and print work together to provide entry-level skills for employment in the graphics industry. This program will offer students preparation to test for the industry-recognized credentials listed below.

Program Information

- Program Start (semesters): August
- Industry-recognized credentials: Adobe Certified Associate – Illustrator; Adobe Certified Associate - InDesign; Adobe Certified Associate - Photoshop
